Yesterday is already a dream and tomorrow is only a vision, but today well lived, makes every yesterday a dream of happiness, and every tomorrow a vision of hope.

As I conclude my final year as your Superintendent, I share with each class member the meaning of genuine concern about issues affecting each of us.

To be concerned represents a personal involvement as we participate with our hearts in meeting objectives of our school and the intensity of our interest determines the degree of anxiety.

I trust that each graduating student will continue his involvement in issues that concern each of us and may the inevitable anxiety add strength to your efforts to improve our way of life.

I appreciate the opportunity to have served the Millville School District.

Z. M. Musial

I offer my sincere congratulations to those of you who have reached this important phase of life. It is a noteworthy accomplishment of which you can be justly proud.

As you go forth, it is important to remember that the positions taken by your generation will have a bearing upon the quality of life that will eventually evolve in our society. When you render decisions, you should do so from the bottom of your heart not the top of your head.

Although you will soon be relieved of the pressures of school, as you progress through life you will find that some of your happiest times were those that were associated with school. As the future permits, we invite you to return to the scene of your accomplishments to greet old friends and rekindle fond memories.

Luck and success in your future endeavors.

Dr. Walter Stanek

On behalf of the Class of '75, the faculty, and the student body I would like to wish Mr. Musial health and happiness in his years of retirement. We will always remember the many things he has done for M.H.S.

Unity is simplicity. Simplicity is beauty. Beauty is nature. To that, we, the Class of 1975, dedicate our yearbook. This collection of memories, together with the all encompassing background of nature, projects the theme of this year's graduating Senior Class. Our environment is surfeited with beautiful works of nature worthy of recognition. Therefore, we find it fitting and natural to present Echo 1975 and nature at its best.

Em!
You're fantastic! I suppose you know how I feel today (5/30/78)
So this will probably sound stupid.

Remember the time we ate sandwiches in study hall?
and tried not to laugh? And the fool I made of myself chasing K.B?

Most of all remember all our good times. The way our
minds coincide with each other! "Gone with the Wind,"
when Rhett & Scarlett were dancing. And the popcorn
on your head. The chocolate on the kitchen tables! What
a time the cooks had to get it off! (HA! HA!)

I hope you can come over to my place this
summer. Maybe I can convince my dad to let
you stay over - night.

And don't worry about boys! Look at me, I'm a
mess!
